Motion Graphic Class

Motion graphic is for broadcasting and creating short clips for ads and game trailers.

In the 48-hour course that MCTC conduct, students will get to learn

- Graphic Design to Motion Design
- Kinetics Types
- Shapes/ Masks
- Tracking and stabilizing
- Color Connections
- 3D Space
- Particles

Throughout the course, the students will use After-effects and Photoshop, Illustrator for creating Motion Designs that they desire for their advertisements, game trailers.

There will be Motion Design Presentation at the end of the course for every student. Students have to get at least one Motion Design for their Portfolio.

This course is suitable for the Animators, People from Broadcasting Industry.
